The Golf Lamp™ by boasform

It's my pleasure to introduce "*The Golf Lamp*" - a new table light design cross-linking lighting design with iconic shape elements from the world of golf, crafted into an elegant and timeless lifestyle product.

The shade is inspired by the iconic sculptural surface design of the golf ball, crafted in high lustre porcelain, leaving the dimple symmetry visible in a smooth clean look.

The tube design is influenced by the figure seven adding an intuitive balance and a beautiful outline, while the stability and gathering force of "*The Golf Lamp*" is a sculptured tee-shape lamp base formed in aluminium around a core of steel.

Standing 50 cm tall, light distribution is perfect used as a table lamp in the office, in the bedroom or living room.

Editions:

- » "*The Golf Lamp*" black edition, black anodised base and mat black tube
- » "*The Golf Lamp*" white edition, mat white base and tube

"*The Golf Lamp*" run directly on the main power system and is dimmable and use miniGU10 halogen or LED

"*The Golf Lamp*" is sold online from www.boasform.com

About boasform

boasform is a lighting design company situated in Denmark founded by Thomas Boas creating elegant and timeless lighting products using the iconic shape from the world of sports as our source of inspiration.
